

48TH ANNUAL MEETING OF THE
EUROPEAN DIABETES EPIDEMIOLOGY GROUP

13TH – 16TH APRIL 2013
POTSDAM, GERMANY

POSTER PRESENTATIONS

SESSION 1 (P1 – 8)

SAT 13TH APR 18-19 H

- P1** *Truus van Woudenberg, G.J.:* The adapted dietary inflammatory index and its association with a summary score for low-grade inflammation and markers of glucose metabolism: the CODAM and HOORN studies.
- P2** *Marzi, C.:* Acute-phase serum amyloid a protein and its implication in the development of type 2 diabetes in the KORA S4/F4 study.
- P3** *Liese, A. D.:* Application of measurement error methodology to the study of sugar-sweetened beverage intake and lipid levels in youth with type 1 diabetes: findings from the search nutrition ancillary study.
- P4** *Tamayo, T.:* Prevalence of undiagnosed type 2 diabetes, impaired fasting glucose and impaired glucose tolerance in two german regions.
- P5** *Atkinson, M. D.:* Diabetes in the UK Biobank: unlocking the potential of linked data.
- P6** *Danquah, I.:* Potential falsification of vitamin a status among urban Ghanaians with type 2 diabetes and hypertension.
- P7** *Philipsen, A.:* Quantifying the strength of the association between measures of obesity and indices of glucose metabolism in a population at high risk of type 2 diabetes.
- P8** *de Almeida-Pititto, B.:* Profile of non-traditional atherogenetic markers according to gender and age.

SESSION 2 (P9 – 16)

SUN 14TH APR 11:30-12:30 H

- P9** *Johansen, N.B.:* Effect of regression or progression in glucose tolerance status on aortic stiffness. The addition-pro study.
- P10** *Gudbjörnsdottir, S.:* Risk of cardiovascular diseases in obese patients with type 2 diabetes affected by the ratio triglycerides-to-hdl-cholesterol.
- P11** *Andersen, G.S.:* Nephropathy incidence among non-western migrants with type 2 diabetes in Denmark.
- P12** *Chamnan, P.:* Change in glycated haemoglobin over 3 years does not improve the prediction of cardiovascular disease over and above glycated haemoglobin measured at a single time point.
- P13** *Køster-Rasmussen, R.:* Weight development and mortality among patients with diabetes.
- P14** *Fitzgibbon, M. S.:* The influence of body mass index on all-cause mortality in patients with established cardiovascular disease.
- P15** *Zhang, L.:* Hypertriglyceridemic-waist phenotype is associated with carotid artery atherosclerosis in Chinese patients with type 2 diabetes.
- P16** *Jensen, T.M.:* Association between changes in serum methylglyoxal levels and development of micro-or macroalbuminuria.

48TH ANNUAL MEETING OF THE
EUROPEAN DIABETES EPIDEMIOLOGY GROUP

13TH – 16TH APRIL 2013
POTSDAM, GERMANY

SESSION 3 (P17 – 23)

MON 15TH APR 11:45-12:45 H

- P17** *Milona, M.*: Incidence and characteristics of iatrogenic hypoglycemia requiring medical assistance. A multicenter survey from tertiary hospitals in Greece.
- P18** *Strele, I.*: Diabetes and utilization of cancer screening in Latvia.
- P19** *Ferrante, L.*: The effect of missing data imputation methods in epidemiological studies based on health electronic databases: an application to the evaluation of inequality in diabetes.
- P20** *Piraccini, F.*: Disparities in the appropriateness of diabetes care: results of Aequitas study.
- P21** *Finucane, F. M.*: Anthropometric and metabolic characteristics of a large cohort of Irish adults with type 2 diabetes and severe obesity.
- P22** *Khalangot, M.*: Anthropometric comparisons of insulin-treated type 2 diabetes patients in Ukrainian regions with diverse historical backgrounds.
- P23** *Pedersen, M. B.*: Sexual needs, concerns and importance among men and women with screen-detected type 2 diabetes – addition – Denmark.

SESSION 4 (P24 – 29)

MON 15TH APR 14:45-15:45 H

- P24** *Pearce, M. S.*: In the Australian aboriginal population is lower birth weight associated with higher fasting glucose and insulin in adolescence?
- P25** *Orchard, T. J.*: Hypertension and smoking are major non-glycemic correlates of skin intrinsic fluorescence (sif) in type 1 diabetes (t1d): an analysis of historical exposure from the Pittsburgh Epidemiology of Diabetes Complications study (EDC).
- P26** *Lamb, M.*: Sex differences in glycaemic control among people with type 1 diabetes.
- P27** *Smith, L. S.*: Birth weight as a predictor of obesity among adult inuit in Greenland.
- P28** *Skrami, E.*: Parents, physicians and adolescents' perspectives in the management of type 1 diabetes.
- P29** *Rutters, F.*: Psychosocial stress is associated with higher mortality: the HOORN study.
